Cleans large parts as easy as small

The Cuda model 2848 is our most common automatic parts washer for over-the-road 6 cylinder diesel engine repair facilities. Featuring a turntable diameter of 28-inches, working height of 48-inches, and load capacity of 1000 lbs, the 2848 Series is equipped with a 5 HP vertical seal-less pump producing 110 GPM at 50 PSI.

- **Ideal for OTR truck and diesel repair facilities**
- **Implement dealers with larger 4-wheel drive tractors**
- **Fits 6 cylinder oil pans, valve covers, and cylinder heads**

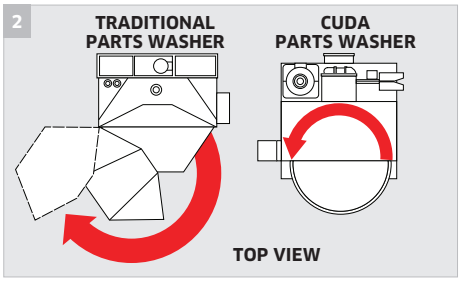

Aqueous parts washers clean faster and better without using harmful solvents!

Cuda automatic parts washers provide a safe and efficient solution to cleaning parts because they don't use harmful cleaning solvents to clean. Our automatic parts washers also provide a time-saving, easy parts cleaning solution for your staff allowing them to simultaneously clean parts while performing other tasks.

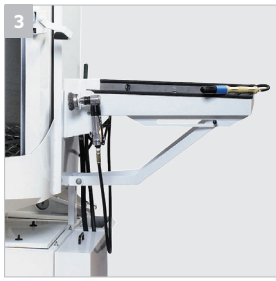

1

2

3

4

1 Retractable for Versatility

- Retractable intermediate spray arm rotates down to clean small parts with or without the optional double-basket.

2 Compact Footprint

- Space saving roll-in door allows easy access to the wash chamber.
- Reduces footprint over other traditional parts washers.
- Roll-in door prevents wash solution from dripping on the shop floor.

3 Customize and Accessorize

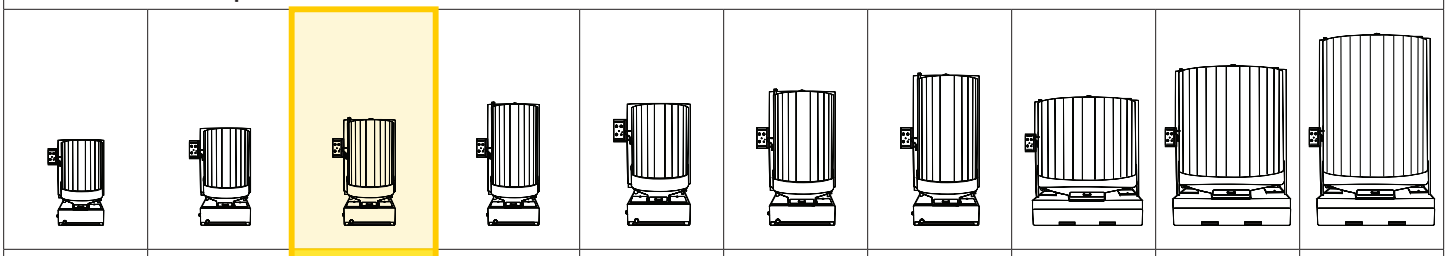

- Customize your parts washer to your specific needs, like with this deluxe kit, so washing becomes the easiest part of the work day.

4 Detergents Engineered for Aqueous Parts Washers

- Cuda detergents contain advanced formulas engineered specifically for use in aqueous parts washers and their specialized needs. Our advanced formulas include an exclusive multi-metal corrosion inhibitor for rust-protection.
