A behemoth by any standard

Cuda's 7248 features a large 72-inch turntable diameter, allowing users to clean a wide range of industrial components. Its working height stands at 48-inches, and it boasts a load capacity of 5000 lbs. The 7248 series is equipped with a 10 HP vertical seal-less pump producing 160 GPM at 50 PSI, and has a 200-gallon sump capacity. A variety of industries can benefit from a 72-inch diameter parts washer including oil and gas, heavy equipment industry (CAT), railroads, and large manufacturing.

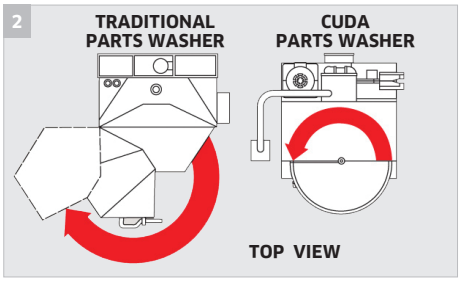

Aqueous parts washers clean faster and better without using harmful solvents!

Cuda automatic parts washers provide a safe and efficient solution to cleaning parts because they don't use harmful cleaning solvents to clean. Our automatic parts washers also provide a time-saving, easy parts cleaning solution for your staff allowing them to simultaneously clean parts while performing other tasks.

1 Efficient Separation

- Built-in oil skimmer (standard all models) and optional oil drain container removes & collects oil from cleaning solution in sump.

2 Compact Footprint

- Space saving roll-in door allows easy access to the wash chamber.
- Reduces footprint over other traditional parts washers.
- Roll-in door prevents wash solution from dripping on the shop floor.

3 Customize and Accessorize

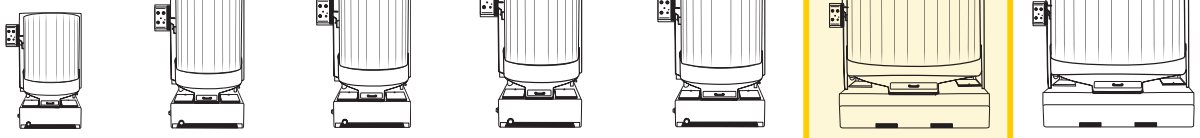

- Customize your parts washer to your specific needs, like with this containment ring, so washing becomes the easiest part of the work day.

4 Detergents Engineered for Aqueous Parts Washers

- Cuda detergents contain advanced formulas engineered specifically for use in aqueous parts washers and their specialized needs. Our advanced formulas include an exclusive multi-metal corrosion inhibitor for rust-protection.
